Melanie Kambadur (8/23/2023 10:18:36 PDT):
>Hey! Wanted to flag an issue [Redacted]

Redacted

Melanie Kambadur (8/23/2023 10:19:23 PDT):
>I think we should make sure the long-context team is measuring memorization effectively (already asked Sinong to do this), and also make improved IP avoidance tuning a PO/launch blocker if it is not already

Melanie Kambadur (8/23/2023 10:19:42 PDT):
>and be sure to test that this works well ON TOP of any long-context tuning, and probably also do red teaming

Melanie Kambadur (8/23/2023 15:19:59 PDT):
>+james on this who mentioned he could pitch in since Chaya has some PTO

Chaya Nayak (8/23/2023 15:36:18 PDT):
>Thank you james!!

Chaya Nayak (8/23/2023 15:36:40 PDT):
>Mohsen has been thinking abt this too

James Beldock (8/23/2023 16:19:46 PDT):
>Just read the whole thread. (Where's that /summarizethread bot?!)
>
>Happy to help here. Just need some pointers.

James Beldock (8/23/2023 16:20:09 PDT):
>Is Sinong being responsive?

James Beldock (8/23/2023 16:20:21 PDT):
>We should probably also tee up a PXFN review.

James Beldock (8/23/2023 16:20:25 PDT):
>(lightweight)

James Beldock (8/23/2023 16:20:37 PDT):
>Do Ahuva and Mike know about this yet?

James Beldock (8/23/2023 16:23:29 PDT):
>Separately, on Red Teaming (context above): is everyone on the thread aware that the RAI team thinks it is building the "one red teaming system for the company"? I just learned that today….

Melanie Kambadur (8/23/2023 16:29:26 PDT):
>ha some of that is probably very old sorry.

Melanie Kambadur (8/23/2023 16:31:11 PDT):
>haven't specifically discussed this with them, no. the dataset is on the august review for AI agent fine tuning for connect, but like I said I'm not sure they're aware yet that [Redacted]

Redacted

James Beldock (8/23/2023 16:32:22 PDT):
>Yep, this seems to be the crux of the matter. @Melanie, do you want me/someone to bug Sinong or Hao?

James Beldock (8/23/2023 16:32:29 PDT):
>(To make sure the work gets prioritized)

Melanie Kambadur (8/23/2023 16:33:34 PDT):
>sure; I did flag to Sinong yesterday and gave him a POC who's been doing memorization analysis on my team (David Esiobu) but it would probably be helpful to follow up and make sure this gets done.

James Beldock (8/23/2023 16:36:24 PDT):
>Argh, I forgot that Hao is in France and on PTO. OK, I'll ping (because he said he was going to end up working some hours).
