Professional Experience

Dispute Advisory Services Experience

- Participated in cases involving breach of contract, patent infringement, trademark infringement, copyright infringement, trade dress infringement, trade secret and other types of business disputes.
- Performed litigation advisory services in various markets including:
  - Banking, securities and financial markets
  - Aerospace and aviation (military and civilian)
  - Electronics (military and civilian), computer hardware / software, and networking
  - Chemicals and petrochemicals
  - Automotive
  - Medical device products
  - Consumer products
- Conducted complex damages studies involving lost sales, lost profits, manufacturing and marketing capacity, price erosion, reasonable royalty, and prejudgment interest for both plaintiffs and defendants.
- Assisted attorneys in developing discovery, refining strategy, preparing interrogatories and document requests, participating in the depositions of witnesses, and preparing demonstrative exhibits for trial.

Financial Advisory Services Experience

- Prepared damages analyses and case strategy for numerous cases involving breach of non-solicitation and non-compete agreements, theft of trade secrets and breach of fiduciary duty matters in various industries, including professional services, financial services, medical device sales, insurance, food processing, among others.
- Worked with legal counsel, management and licensing professionals in the development and execution of royalty audit and contract compliance programs, technology valuation, and licensing strategy.
- Developed an estimate of economic damages arising from alleged infringement of numerous patents for the designer, manufacturer, and marketer of a broad range of products including personal and tablet computers, portable digital music players, mobile communications devices. Analysis included determination of reasonable royalty damages and evaluation of the Georgia-Pacific factors for non-essential patents, availability and suitability of alternatives, market comparables and licensing considerations, benefits of the patented technology, contributions to profit, the parties' bargaining positions and patent stacking and patent exhaustion issues.
- Assisted several financial services companies in the defense of a business method patent litigation relating to Remote Image Capture with Centralized Processing and Storage. Analysis focused on understanding the technology resources, including check processing, imaging and archiving methods and application software employed throughout the banks, to process checks and other bank documents and the associated economics of such systems. Determined appropriate royalty base, which included an analysis of "micro-transactions," and reasonable royalty rate.
- Assisted counsel in creating submissions to the SEC related to its investigation of a $1 billion financial restatement due to accounting irregularities. Also prepared numerous analyses for use in defense of an investor class action suit resulting from the restatement. Managed discovery process involving documents and personnel from more than 20 countries. Assisted counsel in deposition preparation and formulating subpoena responses and document productions for SEC litigation involving accounting issues.
