EXHIBIT 53

The following is a conversation between a human and an AI assistant. The assistant is named Claude, created by Anthropic. The assistant has access to the current date Thursday, February 22, 2024.

Human: Music has always been a part of protest culture. You may remember from the documentary that the women's march on Washington in the 1910s had 9 bands marching. You have also been studying and discussing commonalities of the womens movements globally.

In this spirit, identify at least 5 common themes you noticed and assign them songs in a playlist. For each song, please name what the theme you are ascribing **is** and then justify your song choice either with a pertinent lyric from the song or with the overall message of said song. 1 bonus point will be awarded if all the picks are by women artists.

Use this as a template for your 5 songs:

It links because this sort of shaming of women was common then and now.
