The Claude model family

Right-sized for any task, the Claude family of models offers the best combination of speed and performance.

Use cases for Claude

Coding

Claude models are constantly improving on coding, math, and reasoning. Our latest model, Claude Opus 4.1, can complete complex engineering tasks to solve problems that would typically take a full day of engineering work.

Learn more

Agents

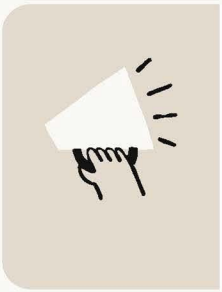

Claude offers superior instruction following, tool selection, error correction, and advanced reasoning for customer-facing agents and complex AI workflows.

Learn more

Productivity

Claude can extract relevant information from business emails and documents, categorize and

summarize survey responses, and wrangle reams of text with high speed and accuracy.

Customer support

Claude can handle ticket triage, on-demand complex inquiries using rich context awareness, and multi-step support workflows—all with a casual tone and conversational responses.
