aaah it died at the last second lmfao. I'm rerunning with [redacted] you can follow along here: [redacted]

looks like it finished the test set: [redacted]

Second [redacted] (mostly sure that's what it's doing but hard to check because the [redacted] are useless), but I suspect we can be way smarter about how we do that part, which means the [redacted]

Anyway we've got a commoncrawl! Or, at least we've got the training set part of it. The test set looks like it's going to take about as long [redacted]

[redacted]

I think I'm pretty ok with this being the current state of perf, esp since I have a ton of perf ideas yet to be tried
