@Claude please write me a sonnet about a young doctor named Charlotte who is flying all the way from Australia to San Francisco

Unknown Replied on Feb 5, 2023 9:21 PM

@Claude actually she's not going to heal anybody while she's in California. She's just going to go skiing and eat croissants. Please write a new sonnet with the updated information

Claude is kinda uptight. If you make a new thread and tell him you're a doctor and ask a more specific question then he'll probably help
