| buy books and scientific papers.
I think we need to have more specific approach here? Others might have a clearer vision but I don't know what our strategy is...

Dario Amodei
I think we have many places from which we could in principle buy these things, but it's a huge legal/practice/business slog.

Neerav Kingsland
Agree. Just naming I still have FUD here. Maybe we could be more aggressive if important?

Jared Kaplan
Two places that sound promising are (1) buying [redacted] from ProQuest -- we're negotiating this now and (2) Springer all access may just give us all books & papers from Springer. But overall this is a hodgepodge.

Dario Amodei
Marked as resolved
