His music has a delicate spacial beauty with a feel of vivid imagery and has been highly praised in an array of reviews published both in Japan and abroad. In 2013, following the Setouchi Triennale 2013, Hideyuki Hashimoto partook in the Sea's Terrace event with his spacial music in Takamijima, and with an upright piano from the island, represented the region's atmosphere with music, leaving the audience with a deep impression of beauty. It was released as the album Home in 2014. In 2017, he released a solo piano 2-part series Room and Out Room, and his first live recording album Breath in 2020. Since then, he has released numerous solo piano works.
