**SAN FRANCISCO DIVISION**

CHICKEN SOUP FOR THE SOUL, LLC,

Plaintiff,

v.

META PLATFORMS, INC.,

Defendant.

Case No. 3:26-cv-02333-VC

**DEFENDANT META PLATFORMS, INC.'S  
SECOND SUPPLEMENTAL RESPONSES AND  
OBJECTIONS TO PLAINTIFF'S FIRST SET OF  
INTERROGATORIES**

Judge: Hon. Vince Chhabria

**PROPOUNDING PARTY: PLAINTIFF CHICKEN SOUP FOR THE SOUL, LLC**

**RESPONDING PARTY: DEFENDANT META PLATFORMS, INC.**

**SET NUMBER: ONE**

Pursuant to Federal Rules of Civil Procedure Rules 26 and 33, and Local Rule 33 of the United States District Court for the Northern District of California, Defendant Meta Platforms, Inc. (“Meta”) hereby objects and provides these supplemental responses to Plaintiff Chicken Soup For The Soul, LLC’s (“Plaintiff”) First Set of Interrogatories (“Interrogatories”).

**I. Responses to All Interrogatories**

1. Meta’s responses to these Interrogatories are made to the best of Meta’s present knowledge, information, and belief. Said responses are at all times subject to such additional or different information that discovery or further investigation may disclose, and while based on the present state of Meta’s recollection, are subject to such refreshing of recollection, and such additional knowledge of facts, as may result from Meta’s further discovery or investigation. Meta reserves the right to make any use of, or to introduce at any hearing and at trial, information and/or documents responsive to these Interrogatories but discovered subsequent to the date of these responses, including, but not limited to, any such information or documents obtained in discovery herein.

2. To the extent that Meta responds to an Interrogatory by stating that Meta will provide information or documents that Meta deems to embody material that is private, business confidential, proprietary, trade secret, or otherwise protected from disclosure pursuant to Federal Rule of Civil Procedure 26(c) and/or Federal Rule of Evidence 501, Meta will only do so subject to the Protective Order (Dkt. 53) governing the unauthorized use or disclosure of such information or documents with a designated “CONFIDENTIAL” or “HIGHLY CONFIDENTIAL - ATTORNEYS’ EYES ONLY” or “HIGHLY CONFIDENTIAL – SOURCE CODE” distinction.

3. Meta reserves all objections or other questions as to the competency, relevance, materiality, privilege or admissibility as evidence in any subsequent proceeding in or trial of this or any other action for any purpose whatsoever of Meta’s responses herein and any document or thing identified or provided in response to the Interrogatories.

## II. Objections to Instructions and Definitions

Whether or not separately set forth in response to each Interrogatory, Meta makes these objections to the following Instructions and Definitions.

1. Meta objects to the definition of “COPYRIGHT MANAGEMENT INFORMATION” to the extent it calls for a legal conclusion. Specifically, a determination of whether any particular data, text, or metadata constitutes “Copyright Management Information” under 17 U.S.C. § 1202(c) is inherently legal in nature and calls for a legal conclusion. Meta is not in a position to know whether any particular information qualifies as legally protected Copyright Management Information and a determination of such is not within Meta’s possession, custody, or control. Meta further objects to this definition as vague and ambiguous, overbroad, unduly burdensome, and disproportionate to the needs of the case to the extent it includes identifying information for persons that “created” copyrighted works.

2. Meta objects to the definition of “CHICKEN SOUP FOR THE SOUL WORK(S)” as overbroad, unduly burdensome and disproportionate to the needs of the case to the extent it puts the burden on Meta to determine which works purportedly “belong” to CHICKEN SOUP FOR THE SOUL. Meta further objects to the term “belong” as vague and ambiguous as it is unclear what form of possession or ownership is intended by the use of this term. Without agreeing that CHICKEN SOUP FOR THE SOUL possesses or owns any valid copyright in any specific works, Meta will interpret the term CHICKEN SOUP FOR THE SOUL WORKS to refer to the specific works identified in Exhibit A to the Interrogatories.

3. Meta objects to the definitions of “COMMUNICATIONS” and “DOCUMENT(S)” to the extent these definitions are inconsistent with and otherwise seek to circumvent the custodian and search term limits for electronic communications (including emails and other electronic correspondence, and documents attached thereto), as provided in the ESI Order.

4. Meta further objects to the definitions of “COMMUNICATIONS” and “DOCUMENT(S)” to the extent they seek to expand or alter the scope of the Federal Rules of Civil Procedure, the Local Rules of this Court, or the ESI Order. Meta further objects to these definitions to the extent they seek Meta to produce documents that are not reasonably accessible because of

1 undue burden or cost pursuant to Fed. R. Civ. P. 26(b)(2)(B), which are unduly burdensome to  
2 preserve and search, or which otherwise, under the proportionality factors, should not be  
3 preserved.

4       5. Meta objects to the definitions of “CORPORA” and “DATASET(S)” as overbroad,  
5 unduly burdensome, and disproportionate to the needs of the case, including (but not limited to) the  
6 extent they refer to non-textual materials that are not relevant to any party’s claims or defenses and  
7 to the extent they refer vaguely to “other content.” Without any admission with respect to content  
8 or nature, Meta will construe the term “DATASET(S)” to refer to Anna’s Archive, Bibliotik,  
9 Books3, C4, Library Genesis (or LibGen), Sci-Hub, The Pile, and Z-Library.

10       6. Meta objects to the definition of “INFRINGE,” “INFRINGED,” and “INFRINGES”  
11 to the extent it calls for a legal conclusion. Specifically, a determination of whether any conduct  
12 constitutes copyright infringement is inherently legal in nature and calls for a legal conclusion.  
13 Meta is not in a position to know whether any particular conduct infringes on a legally protected  
14 work and a determination of such is not within Meta’s possession, custody, or control.

15       7. Meta objects to the definition of “LARGE LANGUAGE MODEL(S)” and “LLM  
16 MODEL(S)” as vague and ambiguous, overbroad, unduly burdensome, and disproportionate to the  
17 needs of the case. In particular, the phrase “any machine learning model, neural network,  
18 generative artificial intelligence model, transformer model, or similar computational system trained  
19 on large quantities of text or other data” is overly broad and encompasses tools and services that  
20 are not relevant to any party’s claims or defenses. Meta further objects to this definition to the  
21 extent that it purports to require Meta to produce documents or information concerning large  
22 language models that were not publicly released and/or were not trained on corpuses of text that  
23 allegedly include any of Plaintiff’s allegedly copyrighted works. Meta further objects that the  
24 phrase “process, predict, generate, summarize, classify, or otherwise manipulate natural language  
25 or content” renders the definition vague, ambiguous, confusing, and overly broad. Meta will  
26 construe “LARGE LANGUAGE MODEL(S)” and “LLM MODEL(S)” to mean the publicly  
27 released Llama 1, Llama 2, Llama 3, Llama 4, and Muse Spark models.

1           **8.**     Meta objects to the definition of “META,” “YOU,” and “YOUR” as overbroad,  
2 unduly burdensome, and disproportionate to the needs of the case. Meta will construe “META,”  
3 “YOU,” or “YOUR” to mean Meta Platforms, Inc.

4           **9.**     Meta objects to the definition of “PIRATED,” “PIRACY,” and “PIRATED  
5 MATERIAL” to the extent it calls for legal conclusions and assumes disputed issues. Meta further  
6 objects that the definition is phrased in a way that is argumentative, prejudicial, and lacks  
7 foundation. Meta is not in a position to know whether any particular work is subject to copyright  
8 protection or whether third-party repositories lacked authorization to host or possess such works.

9           **10.**    Meta objects to the definition of “SHADOW LIBRARY” and “SHADOW  
10 LIBRARIES” to the extent it calls for legal conclusions and assumes disputed issues. Meta further  
11 objects that the definition is phrased in a way that is argumentative, prejudicial, and lacks  
12 foundation. Meta further objects to this definition as overbroad, unduly burdensome, and  
13 disproportionate to the needs of the case, including (but not limited to) the extent it refers to non-  
14 textual materials that are not relevant to any party’s claims or defenses and to the extent it refers  
15 vaguely to “media and similar materials.” Meta is not in a position to know whether any particular  
16 work is subject to copyright protection or whether third-party repositories lacked authorization to  
17 host or possess such works. Meta further objects to this definition to the extent that it incorporates  
18 the objectionable portions of the term “DATASETS.” Without any admission with respect to  
19 content or nature, Meta will construe the term “SHADOW LIBRARY” to refer to certain of the  
20 third-party datasets identified by Plaintiff, namely Anna’s Archive, Bibliotik, Books3, Library  
21 Genesis (or LibGen), Sci-Hub, The Pile, and Z-Library.

22           **11.**    Meta objects to the definition of “WEB SCRAPING” as vague, ambiguous,  
23 overbroad, unduly burdensome, and disproportionate to the needs of the case. In particular, the  
24 extensive list of undefined terms, including “extraction, collection, copying, downloading,  
25 crawling, indexing, harvesting, or retrieval” and “aggregation, storage, processing” are susceptible  
26 to multiple definitions, rendering this definition unintelligibly ambiguous. Meta further objects to  
27 the phrase “images, metadata, or other content” as overbroad and disproportionate to the needs of  
28 the case, to the extent it refers to training data other than text data that is not relevant to any party’s

1 claims or defenses. Meta further objects to this definition to the extent that it incorporates the  
2 objectionable portions of the terms “SHADOW LIBRARIES” and “LARGE LANGUAGE  
3 MODELS.” Meta will construe “WEB SCRAPING” to mean the automated collection of text data  
4 from the public internet for use in training the Meta Language Models (as construed above).

### 5 **III. General Objections**

6 Meta hereby incorporates the following general objections into each of its specific  
7 responses and objections to the individual Interrogatories as if fully set forth therein:

8 **1.** Meta incorporates by reference each and every General Objection set forth below  
9 into each and every specific Response. From time to time, a specific Response may repeat a  
10 General Objection for emphasis or some other reason. The failure to repeat any General Objection  
11 in any specific Response shall not be interpreted as a waiver of any General Objection to that  
12 Response.

13 **2.** Any information provided in response to any individual Interrogatory is made  
14 without waiver of, and subject to, the General Objections and any additional objections asserted in  
15 response to that specific Interrogatory.

16 **3.** Meta objects to the Interrogatories to the extent that they impose any differing or  
17 additional obligations from those required by the Federal Rules, the Local Rules, or any other  
18 applicable rule, law, or doctrine, the ESI Order and the Protective Order entered in this action (the  
19 “Applicable Laws, Rules, and Agreements”), on the ground that such a requirement exceeds the  
20 scope of permissible discovery and attempts to impose an unreasonable burden and expense on  
21 Meta. To the extent any Interrogatory conflicts with, or purports to impose additional or different  
22 duties and obligations, Meta will respond in accordance with the Applicable Laws, Rules, and  
23 Agreements.

24 **4.** Meta objects to the Interrogatories to the extent that they are overly broad, vague,  
25 ambiguous, and unduly burdensome; or seek documents and information that are neither relevant  
26 nor proportional to the needs of this action.

27 **5.** Meta objects to the Interrogatories to the extent they seek information or documents  
28 or seek to impose a search for information or documents: (a) not within Meta’s possession, custody,

1 or control; (b) not maintained by Meta in the normal course of business; (c) already in the  
2 possession, custody, or control of Plaintiff; (d) readily available through public sources or from  
3 sources that are more convenient, less burdensome, or less expensive; or (e) from sources that are  
4 more readily available to Plaintiff than to Meta. Meta further objects to the extent the burden or  
5 expense of the proposed discovery outweighs its likely benefit.

6       **6.** Meta objects to the Interrogatories to the extent that they seek documents and  
7 information protected from disclosure by privileges and other protections from production,  
8 including, without limitation: (a) the attorney-client privilege; (b) the work-product doctrine; or (c)  
9 any other constitutional, statutory, common law or regulatory protection, immunity, or proscription  
10 from disclosure. In responding to the Interrogatories, Meta will not produce information or  
11 documents protected by such privileges. Where Meta withholds information under claim of  
12 privilege, Meta will adhere to the requirements under the ESI Order. Meta does not intend the  
13 inadvertent production of any privileged or protected information to constitute a waiver of Meta's  
14 rights to assert any applicable privilege or protection, and Meta further reserves the right to demand  
15 that Plaintiff return, destroy, or sequester any privileged or protected documents inadvertently  
16 produced and all copies thereof consistent with Fed. R. Civ. P. 26(b)(5)(B) and the terms and  
17 conditions of the ESI Order and the Protective Order entered in this action.

18       **7.** Meta objects to the Interrogatories to the extent that they purport to require Meta to  
19 provide information or documents in violation of a legal, contractual, or other obligation of  
20 nondisclosure owed to a third party. Meta will not provide information or documents subject to  
21 any such obligation unless and until it receives the necessary consent from any such third party or,  
22 in the absence of such consent, unless and until it is ordered to do so by a court of competent  
23 jurisdiction.

24       **8.** Meta objects to the Interrogatories to the extent they call for, or can be interpreted  
25 as calling for, Meta to make legal conclusions, or to the extent they assume disputed issues or are  
26 phrased in such a way as to be lacking foundation, argumentative, prejudicial, or otherwise  
27 improper.  
28

1           **9.**       Meta objects to the Interrogatories to the extent that they seek confidential, trade  
 2 secret, competitively sensitive, business, financial, or other proprietary information. To the extent  
 3 documents or information containing any such information are nonprivileged, responsive to the  
 4 Interrogatories, and are not otherwise objectionable, Meta will only produce such documents and  
 5 information subject to the ESI Order and the Protective Order entered in this action. Meta further  
 6 reserves the right to redact or otherwise withhold any confidential, proprietary, trade secret, or  
 7 competitively sensitive information that is neither relevant nor proportional to the needs of this  
 8 action.

9           **10.**      Meta objects to the Interrogatories to the extent they seek documents that are not  
 10 proportionate to the needs of the case and/or not relevant to any party's claims or defenses.

11           **11.**      Meta objects to the Interrogatories that seek to impose an obligation to investigate  
 12 or discover information or materials from third parties or sources that are equally accessible to  
 13 Plaintiff as duplicative, overbroad, unduly burdensome, and oppressive.

14           **12.**      Meta reserves the right to assert additional objections, or to supplement its  
 15 Responses as appropriate, particularly if any additional information regarding the Interrogatories  
 16 or the underlying claims at issue is provided.

#### 17 **IV.     OBJECTIONS AND RESPONSES TO INDIVIDUAL INTERROGATORIES**

##### 18 **INTERROGATORY NO. 1:**

19 Which CHICKEN SOUP FOR THE SOUL WORKS did YOU obtain from a SHADOW  
 20 LIBRARY?

##### 21 **RESPONSE TO INTERROGATORY NO. 1:**

22           Meta incorporates by reference its objections and definitions above, including to the terms  
 23 CHICKEN SOUP FOR THE SOUL WORKS, YOU, and SHADOW LIBRARY.

24           Subject to and without waiving the foregoing objections, Meta is undertaking a reasonable  
 25 investigation to identify which CHICKEN SOUP FOR THE SOUL WORKS, if any, Meta  
 26 downloaded as part of Anna's Archive, Books3 and LibGen for use in training Meta's LARGE  
 27 LANGUAGE MODELS. As previously communicated to counsel for CHICKEN SOUP FOR THE  
 28 SOUL, Meta may need additional information, including the text of the CHICKEN SOUP FOR

1 THE SOUL WORKS, in order to provide a more complete response to this Interrogatory. Meta  
2 will supplement this response on a rolling basis as it identifies responsive information.

3 **SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 1 (AUGUST 24, 2026):**

4 Subject to and without waiving the foregoing objections, and following a reasonable  
5 inquiry, Meta further responds as follows:

6 Attached as **Exhibit A** hereto is a table identifying, based on Meta's current knowledge,  
7 information, and belief based on a reasonable investigation, the authors and titles of CHICKEN  
8 SOUP FOR THE SOUL WORKS that Meta believes were downloaded from Libgen, Zlib, and  
9 Books3.

10 Based on Meta's current knowledge, information and belief based on a reasonable  
11 investigation, to date Meta has not identified CHICKEN SOUP FOR THE SOUL WORKS that  
12 were downloaded from the Internet Archive Lending Library.

13 Meta's investigation is ongoing and Meta will supplement this Interrogatory as additional  
14 responsive information becomes available.

15 **INTERROGATORY NO. 2:**

16 Identify each CHICKEN SOUP FOR THE SOUL WORK that YOU obtained through WEB  
17 SCRAPING.

18 **RESPONSE TO INTERROGATORY NO. 2:**

19 Meta incorporates by reference its objections and definitions above, including to the terms  
20 CHICKEN SOUP FOR THE SOUL WORK, YOU, and WEB SCRAPING.

21 Subject to and without waiving the foregoing objections, Meta is undertaking a reasonable  
22 investigation to identify which CHICKEN SOUP FOR THE SOUL WORKS, if any, Meta  
23 downloaded as part of any web archiving activity conducted by Meta's SpiderMate web archiver  
24 for use in training Meta's LARGE LANGUAGE MODELS. As previously communicated to  
25 counsel for CHICKEN SOUP FOR THE SOUL, Meta may need additional information, including  
26 the text of the CHICKEN SOUP FOR THE SOUL WORKS, in order to provide a more complete  
27 response to this Interrogatory. Meta will supplement this response on a rolling basis as it identifies  
28 responsive information.

**SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 2 (AUGUST 24, 2026):**

Subject to and without waiving the foregoing objections, and following a reasonable inquiry, Meta further responds as follows:

Attached as **Exhibit B** hereto is a table identifying, based on Meta's knowledge, information, and belief based on reasonable investigation, the CHICKEN SOUP FOR THE SOUL WORKS that Meta believes were obtained from Common Crawl, an open repository of web crawl data made available by the Common Crawl Foundation.

Meta also operates a web crawler "SpiderMate" that obtains publicly available web data from the Internet. The SpiderMate data is organized and searchable based on web domains (e.g. domain portion of Uniform Resource Locators (URLs)). Meta is willing to search SpiderMate data for a reasonable number of web domains identified by Chicken Soup upon request.

**SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 2 (SEPTEMBER 4, 2026):**

Subject to and without waiving the foregoing objections, and following a reasonable inquiry, Meta further responds as follows:

Meta states that it cannot feasibly search SpiderMate based on the text of the CHICKEN SOUP FOR THE SOUL WORKS because that platform is indexed and searchable by URL. Any search through the text of SpiderMate for CHICKEN SOUP FOR THE SOUL WORKS would be extraordinarily burdensome, not technically feasible or proportional to the needs of the case. SpiderMate holds petabytes of data indexed by URL, and any attempt to search for the text of CHICKEN SOUP FOR THE SOUL WORKS would require significant engineering work to develop and deploy a new search tool at significant expense and considerable effort, disproportionate to the needs of the case. Moreover, CHICKEN SOUP FOR THE SOUL has not provided any information indicating that CHICKEN SOUP FOR THE SOUL WORKS are present in any material quantity on publicly available internet web pages. The benefits of any such search are substantially outweighed by the burden. Additionally, Chicken Soup's response to Meta Interrogatory No. 15 (served August 31, 2026) states that Chicken Soup seeks statutory damages under 17 U.S.C. § 504 and "is not seeking actual damages, lost profits, lost sales, lost licensing revenue, or any other form of compensatory monetary relief based upon Plaintiff's economic

losses.” (Plaintiff Chicken Soup for the Soul, LLC’s Responses and Objections to Meta’s Second Set of Interrogatories, August 31, 2026, at 6 [sic -2].) Under 17 U.S.C. § 504, a plaintiff can only recover a single award of statutory damages “for all infringements involved in the action, with respect to any one work.” 17 U.S.C. § 504(c)(1); *see also* H.R. Rep. No. 1476, 94th Cong., 2d Sess. at 162 (1976) (“A single infringer of a single work is liable for a single amount [of statutory damages], no matter how many acts of infringement are involved in the action and regardless of whether the acts were separate, isolated, or occurred in a related series.”); *Desire, LLC v. Manna Textiles, Inc.*, 986 F.3d 1253, 1271 (9th Cir. 2021) (noting that statutory damages awards “should not provide copyright owners a windfall. Congress specifically limited the amount of statutory damages available per award and limited a plaintiff to a single award no matter how many infringements an individual defendant... committed.”). Accordingly, Chicken Soup can only recover a single award of statutory damages for each CHICKEN SOUP FOR THE SOUL WORK, regardless of the number of times that work was downloaded by Meta or how many Meta datasets may have incorporated such work. Accordingly, requiring Meta to develop a new search tool for purposes of searching SpiderMate would be disproportionate to the needs of the case under Rule 26(b)(1).

**INTERROGATORY NO. 3:**

For each CHICKEN SOUP FOR THE SOUL WORK that YOU obtained from a SHADOW LIBRARY or through WEB SCRAPING, when and how did you obtain it? Identify and describe each instance in detail, including the source or sources, date or dates of acquisition, and means or method of acquisition.

**RESPONSE TO INTERROGATORY NO. 3:**

Meta incorporates by reference its objections and definitions above, including to the terms CHICKEN SOUP FOR THE SOUL WORK, YOU, SHADOW LIBRARY, and WEB SCRAPING.

Meta objects to this request to the extent it is duplicative of information sought by Interrogatory Nos. 1 and 2. Meta further objects to this interrogatory as vague, ambiguous, overbroad, unduly burdensome, and disproportionate to the needs of the case to the extent the phrase “[i]dentify and describe each instance in detail, including” seeks unspecified information

beyond the recited request for “the source or sources, date or dates of acquisition, and means or method of acquisition” of data obtained from a SHADOW LIBRARY or WEB SCRAPING.

Subject to and without waiving the foregoing objections, as stated for Interrogatory Nos. 1 and 2, Meta is undertaking a reasonable investigation to identify which CHICKEN SOUP FOR THE SOUL WORKS, if any (1) Meta downloaded as part of Anna’s Archive, Books3, and/or LibGen for use in training Meta’s LARGE LANGUAGE MODELS and (2) Meta downloaded as part of any web archiving activity conducted by Meta’s SpiderMate web archiver for use in training Meta’s LARGE LANGUAGE MODELS. Meta will provide reasonably available information regarding the source, timing, and method of download. As previously communicated to counsel for CHICKEN SOUP FOR THE SOUL, Meta may need additional information, including the text of the CHICKEN SOUP FOR THE SOUL WORKS, in order to provide a more complete response to this Interrogatory. Meta will supplement this response on a rolling basis as it identifies responsive information.

**SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 3 (AUGUST 24, 2026):**

Subject to and without waiving the foregoing objections, and following a reasonable inquiry, Meta further responds as follows:

Attached as **Exhibit A** hereto is a table identifying, based on Meta’s knowledge, information, and belief based on reasonable investigation, the authors and titles of CHICKEN SOUP FOR THE SOUL WORKS that Meta believes were downloaded from the Z-Lib, Libgen Fiction, Libgen Scitech and Books3 collections. Attached as **Exhibit B** hereto is a table identifying, based on Meta’s knowledge, information, and belief based on reasonable investigation, the CHICKEN SOUP FOR THE SOUL WORKS that Meta believes were obtained from Common Crawl, an open repository of web crawl data made available by the Common Crawl Foundation.

With respect to each of these data sources, Meta identifies, to the best of its knowledge, information and belief after reasonable investigation, how each of these data sources was obtained:

**Anna’s Archive (which includes Z-Lib):** Meta explained, in its response to Interrogatory No. 9 (served August 8, 2026), the way in which Meta obtained data from the Z-Lib collection of Anna’s Archive via torrenting, and that response is incorporated herein by reference.

1       **Libgen Fiction:** Meta explained, in its response to Interrogatory No. 9 (served August 8,  
 2 2026), the way in which data from Libgen Fiction was obtained via torrenting, and that response is  
 3 incorporated herein by reference. Additionally, beginning in or about Spring 2023, data from the  
 4 Fiction branch of Libgen was downloaded, and this download was conducted primarily by Nikolay  
 5 Bashlykov. The download was conducted using a direct download technique that did not involve  
 6 use of torrents. Meta has produced a software script (download\_libgen\_direct.py, META-  
 7 KADREY-SC-000197), a version of which Meta believes was used in the direct download process  
 8 for Libgen Fiction.

9       **Libgen Scitech:** Meta explained, in its response to Interrogatory No. 9 (served August 8,  
 10 2026), the way in which data from Libgen Scitech was obtained via torrenting, and that response is  
 11 incorporated herein by reference. Additionally, beginning in or about Spring 2023, data from the  
 12 Scitech branch of Libgen was downloaded, and the download was conducted primarily by Nikolay  
 13 Bashlykov. The download was conducted using a direct download technique that did not involve  
 14 use of torrents. Meta has produced a software script (download\_libgen\_direct.py, META-  
 15 KADREY-SC-000197), a version of which Meta believes was used in the direct download process  
 16 for Libgen Scitech.

17       **Common Crawl:** Meta believes that Common Crawl data was first obtained by Meta prior  
 18 to 2023. Common Crawl was available for download over the Internet from a number of different  
 19 websites and online databases. Based on Meta's knowledge and information after a reasonable  
 20 investigation, Meta has not been able to definitively determine where it originally obtained  
 21 Common Crawl data, but believes it may have been obtained from  
 22 <<https://www.tensorflow.org/datasets/catalog/c4>>, <<https://github.com/speedingghzl/CCNet/>>, or  
 23 <[https://github.com/tensorflow/models/tree/archive/research/lm\\_commonsense#1-download-](https://github.com/tensorflow/models/tree/archive/research/lm_commonsense#1-download-datafiles)  
 24 [datafiles](https://github.com/tensorflow/models/tree/archive/research/lm_commonsense#1-download-datafiles)>.

25       **Books3:** Meta believes that Books3 data was first obtained prior to 2023. At the time it  
 26 was obtained by Meta, Books3 was part of a larger dataset known as "The Pile" published by  
 27 EleutherAI, which was available for download over the Internet from a number of different  
 28 websites and online databases. Meta has not been able to definitively determine where it originally

1 obtained Books3 data, but believes Books3 may have been obtained from a website known as The  
2 Eye (<<https://theeye.eu>>), which at the time hosted a number of publicly-available datasets  
3 including Books3 and The Pile. Meta has produced a spreadsheet (Meta\_Kadrey\_00000250) listing  
4 names of files in a Books3 dataset obtained by Meta.

5 Meta's investigation is ongoing and Meta will supplement this Interrogatory as additional  
6 responsive information becomes available.

7 **SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 3 (SEPTEMBER 4, 2026):**

8 Subject to and without waiving the foregoing objections, and following a reasonable  
9 inquiry, Meta further responds as follows:

10 Meta incorporates by reference its previous responses to this Interrogatory. **Exhibit A**  
11 provided with the August 24, 2026 supplemental response contains, for each CHICKEN SOUP  
12 FOR THE SOUL WORK that was downloaded by Meta, a "Downloaded Dataset(s)" field that  
13 identifies, for each work, the online repository or repositories that were downloaded by Meta that  
14 contained such work. For example, if a work lists "Z-Lib," in this column, that means it was  
15 downloaded as part of the torrent download from Anna's Archive described in Meta's response to  
16 Interrogatory No. 9 (served August 8, 2026). If a work lists "Books3" in this column, it was  
17 downloaded as part of the pre-2023 download of Books3 data as described in Meta's response to  
18 Interrogatory No. 9 (served August 8, 2026).

19 If a work lists "Libgen Scitech," that dataset was downloaded during the multiple  
20 downloads of this dataset, specifically (a) the torrent downloads of Libgen Scitech described in  
21 Meta's response to Interrogatory No. 9 (served August 8, 2026), and (b) the direct download by of  
22 Libgen Scitech Mr. Bashlykov described in Meta's August 24, 2026 supplemental response to  
23 Interrogatory No. 3. To the best of Meta's knowledge, information and belief after reasonable  
24 investigation, the downloads of Libgen Scitech by Bashlykov and Wang are believed to have been  
25 substantially complete, whereas the downloads by former employees Lample and Roller were  
26 partial. Pursuant to Rule 33(d), Meta has produced listings of downloaded files at  
27 META\_KADREY\_00237775 and META\_KADREY\_00243793 corresponding to the partial  
28 downloads of Libgen Scitech by Lample and Roller, respectively, which provide a more precise

1 identification of the works believed to have been downloaded by these individuals. To the best of  
 2 Meta's knowledge, information, and belief, the portions of Scitech believed to have been  
 3 downloaded by Mr. Lample did not contain Plaintiff's works. With respect to Mr. Roller, attached  
 4 as **Exhibit E** is a chart showing, to the best of Meta's knowledge, information, and belief, the  
 5 particular works of Plaintiff that were included in the portions of Scitech believed to have been  
 6 downloaded by him.

7 If a work lists "Libgen Fiction," it was downloaded during the multiple downloads of this  
 8 dataset, specifically (a) the torrent download of Libgen Fiction by Mr. Lample described in Meta's  
 9 response to Interrogatory No. 9 (served August 8, 2026), and (b) the direct download by Mr.  
 10 Bashlykov described in Meta's August 24, 2026 supplemental response to Interrogatory No. 3. To  
 11 the best of Meta's knowledge, information and belief after reasonable investigation, the downloads  
 12 of Libgen Fiction by Mr. Lample and Mr. Bashlykov are believed to have been substantially  
 13 complete as of the dates of their respective downloads.

14 If multiple datasets are listed in this column for a particular work, that means the work was  
 15 separately downloaded during each of these dataset downloads. Details about each of these  
 16 instances of dataset downloading, including the date or dates of acquisition, and the method of  
 17 acquisition, are set forth (a) for torrent downloads, in Meta's response to Interrogatory No. 9 (served  
 18 August 8, 2026), and (b) for Mr. Bashlykov's direct downloads of Libgen Fiction and Libgen  
 19 Scitech, and for Books3, in Meta's August 24, 2026 supplemental response to Interrogatory No. 3.  
 20 With respect to **Exhibit B** provided with the August 24, 2026 supplemental response, Meta has not  
 21 been able to reliably determine precise dates when downloads of Common Crawl occurred, but  
 22 states that Common Crawl data was likely downloaded multiple times as new crawls were made  
 23 available by the Common Crawl Foundation.

24 **INTERROGATORY NO. 4:**

25 Which CHICKEN SOUP FOR THE SOUL WORKS did YOU use, in whole or in part, to train any  
 26 of YOUR LLM MODELS?

27  
 28

**RESPONSE TO INTERROGATORY NO. 4:**

Meta incorporates by reference its objections and definitions above, including to the terms CHICKEN SOUP FOR THE SOUL WORKS, YOU, and YOUR LLM MODELS.

Meta further objects to this interrogatory to the term “train” as vague and ambiguous to the extent it is undefined. Meta will interpret the term “train” as the act of pre-training and/or fine-tuning a large language model.

Subject to and without waiving the foregoing objections, Meta is undertaking a reasonable investigation to identify which CHICKEN SOUP FOR THE SOUL WORKS, if any, were used to pre-train Meta’s LLM MODELS. As previously communicated to counsel for CHICKEN SOUP FOR THE SOUL, Meta may need additional information, including the text of the CHICKEN SOUP FOR THE SOUL WORKS, in order to provide a more complete response to this Interrogatory. Meta will supplement this response on a rolling basis as it identifies responsive information.

**SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 4 (AUGUST 24, 2026):**

Subject to and without waiving the foregoing objections, and following a reasonable inquiry, Meta further responds as follows:

Attached as **Exhibit C** is a list of CHICKEN SOUP FOR THE SOUL WORKS that based on Meta’s knowledge, information, and belief based on reasonable investigation were used in training one or more of the Llama models. **Exhibit C** is broken into two parts. **Part 1** provides a listing that identifies the work files as produced by CHICKEN SOUP FOR THE SOUL (with corresponding title), in which Meta believes the work (or a substantial portion thereof) was used to train at least one of its Llama models. **Part 2** provides a listing that shows, for each work file as produced by CHICKEN SOUP FOR THE SOUL, an identification of the training dataset and specific training dataset file, that Meta believes includes the work (or a substantial portion thereof). To the best of Meta’s knowledge, information and belief, these training files were used in the training of Meta models and thus provide an identification of specific instances in which the identified CHICKEN SOUP FOR THE SOUL WORKS were used in training.

Meta's investigation is ongoing and Meta will supplement this Interrogatory as additional responsive information becomes available.

**INTERROGATORY NO. 5:**

For each CHICKEN SOUP FOR THE SOUL WORK that YOU used, in whole or in part, to train any of YOUR LLM MODELS, when and how did you do so? IDENTIFY and describe each instance in detail.

**RESPONSE TO INTERROGATORY NO. 5:**

Meta incorporates by reference its objections and definitions above, including to the terms CHICKEN SOUP FOR THE SOUL WORKS, YOU, and YOUR LLM MODELS.

Meta further objects to this interrogatory to the term "train" as vague and ambiguous to the extent it is undefined. Meta will interpret the term "train" as the act of pre-training and/or fine-tuning a large language model. Meta further objects to the phrase "how did you do so?" as it does not specify which actions the interrogatory seeks information about. Meta will interpret the phrase "how did you do so?" as seeking a high-level general description of the way a work like a CHICKEN SOUP FOR THE SOUL WORK would be used in the pre-training process of Meta's LLM MODELS. Meta further objects to this interrogatory as vague, ambiguous, overbroad, unduly burdensome, and disproportionate to the needs of the case to the extent the phrase "[i]dentify and describe each instance in detail" seeks unspecified information about the use of CHICKEN SOUP FOR THE SOUL WORKS in pre-training. Meta will interpret this phrase to seek a high-level general description of the way a work like a CHICKEN SOUP FOR THE SOUL WORK would be used in the pre-training process of Meta's LLM MODELS.

Subject to and without waiving the foregoing objections, as stated for Interrogatory No. 4, Meta is undertaking a reasonable investigation to identify which CHICKEN SOUP FOR THE SOUL WORKS, if any, that were used to pre-train Meta's LLM MODELS and Meta will provide a high-level general description of the way a work like a CHICKEN SOUP FOR THE SOUL WORK would be used in the pre-training process of Meta's LLM MODELS. As previously communicated to counsel for CHICKEN SOUP FOR THE SOUL, Meta may need additional information, including the text of the CHICKEN SOUP FOR THE SOUL WORKS, in order to

1 provide a more complete response to this Interrogatory. Meta will supplement this response on a  
2 rolling basis as it identifies responsive information.

3 **SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 5 (AUGUST 24, 2026):**

4 Subject to and without waiving the foregoing objections, and following a reasonable  
5 inquiry, Meta further responds as follows:

6 Meta has provided, in response to Interrogatory 7, *infra*, a description of how textual  
7 training data (which would include the CHICKEN SOUP FOR THE SOUL WORKS identified in  
8 response to Interrogatory No. 4) was processed and used in the training process for Meta's models.  
9 As described in response to Interrogatory No. 4, *supra*, **Exhibit C, Part 2**, provides a listing that  
10 shows, for each work file as produced by CHICKEN SOUP FOR THE SOUL, an identification of  
11 the training dataset and training dataset file, where Meta believes the work (or a substantial portion  
12 thereof), is contained. To the best of Meta's knowledge, information and belief, these training files  
13 were used in the training of Meta models and thus provides an identification of specific instances  
14 in which the identified CHICKEN SOUP FOR THE SOUL WORKS were used in training.

15 **SECOND SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 5 (SEPTEMBER 4, 2026):**

16 Subject to and without waiving the foregoing objections, and following a reasonable  
17 inquiry, Meta further responds as follows:

18 Meta incorporates by reference its previous responses to this Interrogatory. **Exhibit C**  
19 provided with the August 24, 2026 supplemental response identifies, for each work, codenames of  
20 the dataset(s) in which each identified work was located, and each codename corresponds to b3g,  
21 Libgen Fiction, Libgen Scitech, Z-Lib, or Common Crawl (cc) (where applicable). Meta states that  
22 the b3g dataset was used to train Llama 1 (released February 2023), Llama 2 (released July 2023),  
23 Llama 3 (released April 2024), and Llama 4 (released April 2025). As such, any work in **Exhibit**  
24 **C** that lists b3g was used in training each of these models. The Libgen Scitech dataset was used to  
25 train Llama 3 and 4, and as such, any work in **Exhibit C** that lists a Libgen Scitech dataset (*i.e.*,  
26 scitech\_20231120, scitech\_20231126, scitech\_en, scitech\_non\_en) was used in training each of  
27 those models. The Libgen Fiction dataset was used to train Llama 3 and 4, and as such, any work  
28 in **Exhibit C** that lists a Libgen Fiction dataset (*e.g.*, libgen\_fiction\_20231120,

1 libgen\_fiction\_rest\_safe, llama\_fiction\_split) was used in training each of those models. The Z-  
2 Lib dataset was part of Anna's Archive and first used to train Llama 4, and as such, any work in  
3 **Exhibit C** that lists a Z-Lib dataset (*i.e.*, zlib, llama\_bespoke\_zlib) was used in training Llama 4.  
4 Pursuant to Rule 33(d), Meta refers Plaintiff to the "b3g" dataset produced at  
5 META\_KADREY\_DATA\_001, the "Libgen" and "Anna's Archive" datasets produced as part of  
6 META\_ENTREPRENEUR\_DATA\_001. Common Crawl datasets were used to train Llama 1  
7 through Llama 4. Pursuant to Rule 33(b), Meta identifies the Common Crawl datasets produced  
8 by Meta identified by codenames in **Exhibit C**, which were produced at  
9 META\_KADREY\_DATA\_002 ("c4" and "edouard\_cc"), META\_KADREY\_DATA\_002A  
10 ("ccnet"), and META\_KADREY\_DATA\_003 ("ccnew\_new"). Additionally, **Exhibit D** identifies  
11 the works of Plaintiff that were used to train the Muse Spark family of models, the first of which  
12 was released in April 2026.

13 Additionally, the training run for each of these models starts from scratch with the model  
14 parameters randomly initialized; as a result, to the extent a CHICKEN SOUP FOR THE SOUL  
15 WORK was used in training a Meta model, that training run represents a separate instance in which  
16 text from the work was used. Additionally, prior to the public release of any Meta Llama or Muse  
17 model and consistent with standard LLM development practices, a number of internal models are  
18 trained for experimental and evaluation purposes including ablation studies, performance  
19 benchmarking, and other research to refine the training datamix and hyperparameters for the  
20 training run resulting in the model intended for public release. Meta is unable to reliably and  
21 reasonably ascertain the number of research and internal models that were created for these  
22 purposes. Additionally, Meta has also developed and utilized a number of purpose-built variants  
23 of its LLMs that serve discrete internal purposes such as data processing and classification,  
24 evaluation of LLM prompts and responses for safety purposes, and content analysis and filtering.

25 Meta's investigation is ongoing and Meta will supplement this Interrogatory as additional  
26 responsive information becomes available.

**INTERROGATORY NO. 6:**

IDENTIFY each CHICKEN SOUP FOR THE SOUL WORK from which YOU removed or altered any COPYRIGHT MANAGEMENT INFORMATION.

**RESPONSE TO INTERROGATORY NO. 6:**

Meta incorporates by reference its objections and definitions above, including to the terms CHICKEN SOUP FOR THE SOUL WORKS, YOU, and COPYRIGHT MANAGEMENT INFORMATION.

Meta further objects to this interrogatory as overbroad, unduly burdensome, and disproportionate to the needs of the case to the extent it seeks information about CHICKEN SOUP FOR THE SOUL WORKS that were not used as part of Meta's pre-training of large language models.

Subject to and without waiving the foregoing objections, Meta is undertaking a reasonable investigation to identify for which CHICKEN SOUP FOR THE SOUL WORKS identified in its responses to Interrogatory Nos. 1 and 2 Meta is able to reasonably determine that COPYRIGHT MANAGEMENT INFORMATION was removed or altered by Meta. As previously communicated to counsel for CHICKEN SOUP FOR THE SOUL, Meta may need additional information, including the text of the CHICKEN SOUP FOR THE SOUL WORKS, in order to provide a more complete response to this Interrogatory. Meta will supplement this response on a rolling basis as it identifies responsive information.

**SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 6 (AUGUST 24, 2026):**

Subject to and without waiving the foregoing objections, and following a reasonable inquiry, Meta further responds as follows:

As explained in response to Interrogatory No. 7, *infra*, Meta did employ processes in which repetitive text from books was not included in the training data used for training certain Meta Llama models, including data that commonly appear in works such as "ISBN," "Copyright," the copyright symbol ©, "All Rights Reserved," and "DOI." Based on Meta's current understanding and investigation, Meta believes this processing step may have been performed in the processing of at least some CHICKEN SOUP FOR THE SOUL WORKS identified in response to Interrogatory

No. 4, *supra*. Meta is undertaking a reasonable search of the produced training data to determine if it can more precisely identify particular CHICKEN SOUP FOR THE SOUL WORKS to which this processing step was applied. As further explained in response to Interrogatory No. 7, *infra*, Meta did not employ this processing step for scanned and digitized books it used as training data for its Muse models.

Meta's investigation is ongoing and Meta will supplement this Interrogatory as additional responsive information becomes available.

**SECOND SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 6 (SEPTEMBER 4, 2026):**

Subject to and without waiving the foregoing objections, and following a reasonable inquiry, Meta further responds as follows:

Meta believes that for a substantial majority of the CHICKEN SOUP FOR THE SOUL WORKS set forth in Exhibit C, repetitive text was not included in the training data used for training certain Meta Llama models, including data that commonly appear in works such as "ISBN," "Copyright," the copyright symbol ©, "All Rights Reserved," and "DOI." Meta's investigation is ongoing and Meta will supplement if appropriate.

**INTERROGATORY NO. 7:**

Explain what you did with each CHICKEN SOUP FOR THE SOUL WORK that YOU obtained from a SHADOW LIBRARY or through WEB SCRAPING or that YOU used, in whole or in part, to train any of YOUR LLM MODELS. For each CHICKEN SOUP FOR THE SOUL WORK, your explanation should state whether, when, and how it was:

- (a) retained, stored, or preserved;
- (b) ingested;
- (c) processed;
- (d) tokenized;
- (e) duplicated or reproduced;
- (f) de-duplicated;
- (g) stripped of COPYRIGHT MANAGEMENT INFORMATION;
- (h) modified or altered in any other way;

- 1 (i) distributed;
- 2 (j) torrented;
- 3 (k) incorporated, in whole or in part, into any of YOUR LLM MODELS or model
- 4 parameters; or
- 5 (l) deleted.

6 **RESPONSE TO INTERROGATORY NO. 7:**

7 Meta incorporates by reference its objections and definitions above, including to the terms  
 8 CHICKEN SOUP FOR THE SOUL WORKS, SHADOW LIBRARY, WEB SCRAPING,  
 9 COPYRIGHT MANAGEMENT INFORMATION, YOU, and YOUR LLM MODELS.

10 Meta further objects to this interrogatory as compound because it comprises at least twelve  
 11 subparts and would potentially exceed the allowable number of interrogatories under the Federal  
 12 Rules of Civil Procedure. Meta further objects to the terms “[e]xplain what you did”, “processed”,  
 13 “tokenized”, “stripped”, “modified or altered in any other way”, “incorporated, in whole or in part,  
 14 into any of YOUR LLM MODELS or model parameters” as vague and ambiguous. Meta further  
 15 objects to this interrogatory to the extent it seeks information sought by Interrogatory Nos. 1-6.  
 16 Meta further objects to this interrogatory to the extent it requires Meta to create or re-create  
 17 information or data that is not in Meta’s possession, custody, or control.

18 Subject to and without waiving the foregoing objections, as stated for Interrogatory Nos. 1-  
 19 6, Meta is undertaking a reasonable investigation to identify which CHICKEN SOUP FOR THE  
 20 SOUL WORKS, if any, were downloaded and used to pre-train Meta’s LLM MODELS. Meta will  
 21 provide a high-level general description of the way a work like a CHICKEN SOUP FOR THE  
 22 SOUL WORK would be utilized by Meta in conjunction with Meta’s LLM MODELS. As  
 23 previously communicated to counsel for CHICKEN SOUP FOR THE SOUL, Meta may need  
 24 additional information, including the text of the CHICKEN SOUP FOR THE SOUL WORKS, in  
 25 order to provide a more complete response to this Interrogatory. Meta will supplement this  
 26 response on a rolling basis as it identifies responsive information.

27 **SECOND SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 7 (AUGUST 24, 2026):**

28 Subject to and without waiving the foregoing objections, and following a reasonable

1 inquiry, Meta further responds as follows:

2 **This response is designated as Highly Confidential - Attorneys' Eyes Only under the**  
3 **Protective Order.**

4 As explained in response to Interrogatory No. 3, Meta used publicly-available works that  
5 were downloaded from online repositories (in some cases through torrent downloads) and web data,  
6 in connection with the research, development, and training of certain AI models. An initial step is  
7 to download the files, which are (in the case of books) typically in Portable Document Format  
8 (PDF) or Electronic Publication (EPUB) format. Regardless of the format, downloaded files must  
9 then be processed into a form suitable for model training. In many instances, the downloaded book  
10 files contained a series of scanned pages, which were run through optical character recognition  
11 (OCR) to extract textual information from the files. Textual information from the downloaded files  
12 was further filtered and processed for quality and de-duplication. In some cases, the processing of  
13 the downloaded files resulted in certain text from those files not being included in the data  
14 ultimately used for model training. For example, Meta created software scripts to filter out text  
15 comprising certain personally identifiable information (PII) (such as email addresses) and repetitive  
16 text in book files from certain downloaded data. This repetitive text included (as explained at  
17 Meta\_Kadrey\_00065249), lines that contain fewer than 8% unique words, and repetitive words and  
18 phrases that commonly appear in works such as "ISBN," "Copyright," the copyright symbol ©,  
19 "All Rights Reserved," and "DOI." *See also* Meta's Response to Interrogatory No. 6, for more  
20 specificity. Meta notes that, to the extent other data from the original works was not included in  
21 the training data, that fact will be reflected and can be ascertained from the training data produced  
22 to Plaintiffs.

23 After the downloading, de-duplication, processing and cleaning processes, the resulting data  
24 may then be used as input text for training a large language model (LLM). The LLM training  
25 process is a complex one involving numerous steps, including steps of tokenization and embedding.  
26 Tokenization generally breaks the input text into smaller units (tokens), which are assigned unique  
27 numbers. The embedding process then identifies multi-dimensional vectors (embeddings) for each  
28 token in the input sequence, which attempt to capture the meaning of the words in the input text.

1 The training process continues by feeding these word embeddings into the transformer layers of  
2 the LLM, to obtain next token probabilities from the neural network, which are compared and used  
3 to update the model weights (also commonly referred to as parameters). These training steps are  
4 computationally intensive and are repeated billions or even trillions of times (depending on the  
5 training dataset size) until the LLM has made predictions about all of the input text in the training  
6 dataset. Billions of LLM weights are adjusted throughout this process to improve the model's next-  
7 token prediction accuracy. *See* Meta's Response to Interrogatory No. 4, for an identification of the  
8 particular CHICKEN SOUP FOR THE SOUL WORKS that Meta believes were used (in whole or  
9 part) for model training.

10 Once an LLM has been trained and is available to be used, it can be provided to users in a  
11 number of ways. For Llama 1 through Llama 4, Meta made these models available for distribution  
12 to the open source community for use by researchers, developers, and other third parties, pursuant  
13 to applicable open source license agreements. Although the weights in an open source model are  
14 distributed and available to the open source community, the underlying text data used to train the  
15 LLM was not provided with these models or their model weights. Beginning in or about April  
16 2024, Meta also made functionality from Llama broadly available to the general public through  
17 Meta AI and incorporated into certain other Meta products.

18 Beginning in or around mid-2025, Meta began acquiring physical copies of books for use  
19 in training later LLMs. Many of the processes described above for models trained on downloaded  
20 works also apply to these models, with some exceptions. The acquired physical copies were first  
21 scanned into digital form and then run through OCR to extract their textual data from the scanned  
22 images as discussed above, and then de-duplicated, processed and cleaned, but copyright-related  
23 information from these purchased books was not filtered out before being used for model training.  
24 In April 2026, Meta introduced the initial version of its Muse Spark model, which is available  
25 through certain Meta products and services, and later versions were made available to developers  
26 through an application programming interface (API). In August 2026, Meta also made its Muse  
27 Glimmer model available for distribution to the open source community for use by researchers,  
28 developers, and other third parties, pursuant to an open source license agreement.

**SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 7 (SEPTEMBER 4, 2026):**

Subject to and without waiving the foregoing objections, and following a reasonable inquiry, Meta further responds as follows:

Meta incorporates by reference its previous responses to this Interrogatory. Meta further states that to the extent any work of CHICKEN SOUP FOR THE SOUL was used in training a Llama or Muse model, each of the processing, filtering and training steps above would apply to each of those works (with the exception of copyright-related information processing with respect to purchased books for the Muse models). A number of transitory and persistent copies of each of these works would have been created in the conversion and transformation of the original text into the processed form suitable for input into Meta's LLM training pipelines. Additional copies are also made when the processed data is used in a training run, including transitory and intermediate copies made when the processed data (which includes text from the original works) is transformed into tokenized data representations used in the embedding and next-token prediction processes described above. To the extent a work of CHICKEN SOUP FOR THE SOUL is used in training a Llama or Muse model, Meta has no feasible way to reliably ascertain the number of additional persistent or transitory copies of text from such work that are made in the course of these processing and training processes. Meta further states that, to the extent Plaintiff contends this interrogatory requires a cataloguing of every conceivable copy of its works that may have been made internally at Meta in connection with its LLM development efforts, this information would be irrelevant and not proportional to the needs of the case. *See Kadrey v. Meta Platforms, Inc.*, 788 F.Supp. 3d 1026, 1048 (N.D. Cal. 2025) ("In any event, even if Meta did download some copies that weren't ultimately used for training, fair use doesn't require that the secondary user make the lowest number of copies possible."). Plaintiff has informed Meta that it seeks only statutory damages in this action and no other form of compensatory monetary relief, and as such, plaintiff can only recover a single award of statutory damages "for all infringements involved in the action, with respect to any one work." 17 U.S.C. § 504(c)(1); *see also* H.R. Rep. No. 1476, 94th Cong., 2d Sess. at 162 (1976) ("A single infringer of a single work is liable for a single amount [of statutory damages], no matter how many acts of infringement are involved in the action and regardless of whether the acts were

1 separate, isolated, or occurred in a related series.”); *Desire, LLC v. Manna Textiles, Inc.*, 986 F.3d  
2 1253, 1271 (9th Cir. 2021). Meta further states that to the extent it used any work of CHICKEN  
3 SOUP FOR THE SOUL in training its LLMs, Meta is unaware of any uses of such work that were  
4 not in furtherance of the research, development, evaluation and training of its LLMs. Pursuant to  
5 Rule 33(d), Meta further refers to the deposition testimony of James Beldock and Shaun Lindsay  
6 given in this action, which provides additional information about how datasets are acquired and  
7 used in the research, development, evaluation and training of Meta’s LLMs.

8 Meta made open source distributions of Llama 1-4 and Muse Glimmer (in August 2026),  
9 but these distributions include model weights but not the data (including any work of CHICKEN  
10 SOUP FOR THE SOUL) used to train the model. Additionally, Meta does not currently have  
11 information with respect to whether any work of CHICKEN SOUP FOR THE SOUL (or any  
12 portion thereof) was uploaded or distributed to any third party during downloads via torrent, as the  
13 information available to Meta does not identify the content of data payloads, if any, that may have  
14 been uploaded during such downloads. Ascertaining whether a particular work of CHICKEN  
15 SOUP FOR THE SOUL (or any portion thereof) was distributed during torrenting is a matter for  
16 an analysis as part of expert discovery. As explained in Meta’s response to Interrogatory No. 9  
17 (served August 8, 2026), Meta has produced extensive file lists, cost and usage data, log files, and  
18 other data for each torrent download, to facilitate such analysis. Pursuant to Rule 33(d), Meta  
19 further refers to the Rule 30(b)(6) deposition testimony of James Beldock provided on August 28,  
20 2026 in *Kadrey v. Meta Platforms, Inc.*, No. 3:23-cv-03417-VC (N.D. Cal.), which provides  
21 additional information relating to the alleged distribution of copyrighted works during torrent  
22 downloads.

23 **INTERROGATORY NO. 8:**

24 For each response to every Request for Admission served on YOU by Plaintiff in this case  
25 that is not an unqualified admission, IDENTIFY the following information:

- 26 (a) The number of the Request for Admission;  
27 (b) All facts on which YOU base your response;  
28 (c) All PERSONS who have knowledge of those facts; and

(d) All DOCUMENTS that support YOUR response along with the custodian of those DOCUMENTS.

**RESPONSE TO INTERROGATORY NO. 8:**

Meta incorporates by reference its objections and definitions above, including to the terms YOU and DOCUMENTS.

Meta further objects to this interrogatory as compound because it comprises multiple subparts and would potentially exceed the allowable number of interrogatories under the Federal Rules of Civil Procedure. Meta will respond to this interrogatory to the extent required by Local Rule 33-2 and 36-2.

Meta is willing to meet and confer regarding the appropriate scope, if any, of a response to this interrogatory.
